Profile Summary

Java Full Stack Developer with experience in Spring Boot, REST APIs, microservices, and real-time systems. Strong in backend development, scalable application design, and Data Structures & Algorithms with hands-on experience in JWT authentication, WebSocket, Kafka, Redis, and database management.

Technical Skills

Languages: Java, C++, JavaScript, Python, SQL

Backend: Spring Boot, Hibernate (JPA), REST APIs, JWT, WebSocket, Microservices, Kafka, Redis

Frontend: React.js, HTML, CSS, JavaScript

Databases: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, Docker, Postman, GitLab

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, System Design, Multithreading

Experience

Trainee Software Engineer | Webkul Software Pvt. Ltd., Noida Jan 2026 – Present

- Developed and customized ERP modules using Odoo (Python) with PostgreSQL, improving workflow automation.
- Designed and implemented a **Library Management System** for book issuance, returns, and fine tracking.
- Built and integrated **RESTful APIs**, handling backend logic and database operations.
- Customized UI using **HTML, CSS, and JavaScript** to enhance user experience.
- Utilized **Docker** and **GitLab** for containerization and version control.

Full Stack Development Intern | CodeAlpha Jun 2025

- Developed responsive web applications using **Java, Spring Boot, and React**.
- Improved application performance and received a **Letter of Recommendation**.

Projects

TimeCoins | Wallet & Messaging Platform | Spring Boot, MySQL, REST API, React.js Dec 2025 | GitHub

- Developed a secure **wallet system** with **JWT authentication** and transaction management (Spring Boot, MySQL).
- Built **25+ REST APIs** supporting real-time transactions and messaging between users, improving system performance and scalability.
- Implemented a **real-time messaging system** using **WebSocket** with support for text communication and **coin transfer**.
- Ensured **data consistency and concurrent transaction handling** using **@Transactional** and **Hibernate (JPA)**.
- Implemented **pagination** for message history and integrated **PayPal Sandbox** for wallet top-up.
- Designed a **dynamic coin valuation system** to simulate real-time pricing.

DSA TRAINER | DSA Learning Platform | Node.js, Express.js, MongoDB Mar 2025 | GitHub

- Built a platform for **DSA learning** with topic-wise problems, solutions, and interview preparation modules.
- Designed and developed **REST APIs** for efficient data handling and content management.

CodeKing | Social Platform for Coders | Node.js, Express, MySQL, JavaScript Nov 2024 | GitHub

- Developed a **social media platform** supporting posts (images, videos, code snippets, banners) and user interactions.
- Implemented features like **like, comment, and save posts**, along with user profiles and search functionality.
- Built a **real-time chat system** and optimized **REST APIs** and database queries for performance.

Coding Profiles

LeetCode: 250+ problems solved (DSA - Arrays, Trees, DP) | Profile

Education

KIET Group of Institutions, Ghaziabad 2024 – 2026

Master of Computer Applications (MCA), *CGPA: 8.24/10*

Maharaja College, Ara 2021 – 2024

Bachelor of Computer Applications (BCA), *69.1%*

Certifications

Udemy: Spring Boot From Scratch For Beginners July 2025

Udemy: Modern JavaScript for React Developer - Zero to Advanced Jun 2025
